**Ombudsman**

**R.E. Complaints against Highland Social Services**

Dear Rosemary Colhoon

Further to our conversation 26/10/05, I am hereby submitting a request to your department for ombudsman involvement.

As you may have gathered from our conversation, this case involves many administrative dysfunctions, falsehoods and corruptions perpetuated by highland Social services. Thus I would ask that any information from this department be rigorously reviewed, as they have constantly lied about myself and my daughter's well being to conceal the crimes committed by their own staff.

I have now exhausted enquiries to the review board who have simply attempted to waste as much time as possible.

This negligence continues to cause my Daughter & my family the most dreadful heartache and can only be considered child cruelty in order to protect corruption within this authority.

I will contact you and send more information regarding this case over the next few weeks.

I have completely exhausted the complaints options and now feel that the Ombudsman must investigate this most serious matter in the Public Interest in the interests of Justice.

Yours sincerely

William Boyd

C/c Cathy Jaimeson, Justice Minister  
Director of Social Services, Harriet Dempster
